#### VIOLATIONS OF CODE:

Initially one should attempt to resolve an ethical violation by bringing the behavior to the attention of the violator. If the misconduct is of a minor nature and/or appears to be due to a lack of sensitivity, knowledge or experience, an informal discussion between the parties involved should result in an amicable solution. If the violation is irresolvable or is of a more serious nature, then the individual should submit his/her protest/grievance to the attention of the New Jersey YMCA Program Cabinet Protest/Grievance Committee for resolution based on the league constitution, with notification going to each YMCA's appropriate professional staff.

#### DISCIPLINARY ACTION:

Disciplinary Action of the "Code of Ethics" may include warnings, suspension and/or expulsion from YMCA sanctioned competitive meets and of the coach's certification as a coach as well as a formal letter to the executive director of the affected YMCA. The Protest/Grievance Committee of the New Jersey YMCA Program Cabinet will investigate any alleged violation of the Code of Ethics.

#### PROMOTING YOUR TEAM:

Public statements, advertising and promotional activities should serve the purpose of enlightening the public about the benefit of YMCA competitive sports and help the public to make informed decisions about programs. Such statements should represent a coach's competence, education, training and experience in an accurate fashion. Also statements should not be presented in a manner which creates false or unjustifiable expectations and should not contain comparisons to other programs that cause doubt about the competing programs.
